INTERNSHIP

Data Science Intern Jan 2026 - Feb 2026

Shorat Innovations Pvt. Ltd.

Ahilyanagar, Maharashtra

- Worked as a Data Science Intern with exposure to real-world data handling. Learning data collection, data cleaning, and basic data analysis techniques.

Web Development Trainee

Jun 2023 - Jul 2023

Rajavi Technology Pvt. Ltd.

(Remote)Pune, Maharashtra

- Gained hands-on experience in web development through an extensive online program. Developed and learned the front-end of a responsive website using HTML, CSS, and JavaScript.

PROJECTS

FRIDAY: Personal AI Companion. Led a team to build a Python-based desktop AI assistant (FRIDAY). Implemented NLP and APIs to automate tasks like user interaction, web browsing, and weather updates.

Netflix Movie Recommendation System. Designed & developed a Netflix movie recommendation model using Python and machine learning, enabling personalized content suggestions through data preprocessing and similarity analysis.

Calories Burn Prediction System. Developed a machine learning-based calories burn prediction system. In which analyzed user inputs such as age, gender, heart rate, and exercise duration to estimate calorie expenditure.

PUBLICATIONS

Research Paper: FRIDAY: Personal AI Companion [2024].

Published in International Journal of Advanced Research in Science, Communication and Technology ([IJARSCT](#)), Vol. 4, Issue 1.

Focus: R&D, AI technologies, and system development of FRIDAY.
